

TAI CHI

Cognitive behavioral therapy vs. Tai Chi for late life insomnia and inflammatory risk: A randomized controlled comparative efficacy trial. [Irwin MR](#), [Olmstead R](#), [Carrillo C](#), et al. *Sleep*. 2014 Sep 1;37(9):1543-52.

Blood pressure, salivary cortisol, and inflammatory cytokine outcomes in senior female cancer survivors enrolled in a Tai Chi Chih randomized controlled trial. Campo RA, Light KC, O'Connor K, et al. *Journal of Cancer Survivorship*. 2014 Aug 28.

Mindfulness-based interventions in multiple sclerosis: beneficial effects of Tai Chi on balance, coordination, fatigue and depression. Burschka JM, Keune PM, Oy UH, et al. *BMC Neurology*. 2014 Aug 23;14(1):165.

Effects of Tai Chi on health related quality of life in patients with chronic conditions: A systematic review of randomized controlled trials. Li G, Yuan H, Zhang W. *Complementary Therapies in Medicine*. 2014 Aug;22(4):743-755.

Effects of Tai Chi for patients with knee osteoarthritis : a systematic review. [Ye J](#), [Cai S](#), [Zhong W](#), et al. *Journal of Physical Therapy Science*. 2014 Jul;26(7):1133-7.

Tai Chi exercise can improve the obstacle negotiating ability of people with Parkinson's Disease: a preliminary study. [Kim HD](#), [Jae HD](#), [Jeong JH](#). *Journal of Physical Therapy Science*. 2014 Jul;26(7):1025-30.

Effect of Tai Chi on physical function, fall rates and quality of life among older stroke survivors. [Taylor-Piliae RE](#), [Hoke TM](#), [Hepworth JT](#), et al. *Archives of Physical Medicine and Rehabilitation*. 2014 May;95(5):816-24.

Effects of Tai Chi on balance and fall prevention in Parkinson's Disease: a randomized controlled trial. Gao Q, Leung A, Yang Y. *Clinical Rehabilitation*. 2014 Feb 11;28(8):748-753.

Effects of Tai Chi exercise on blood pressure and plasma levels of nitric oxide , carbon monoxide and hydrogen sulfide in real-world patients with essential hypertension . [Pan X](#), [Zhang Y](#), [Tao S](#). *Clinical and Experimental Hypertension*. 2014 Feb 3.

Effect of Tai Chi on cognitive performance in older adults: systematic review and meta-analysis. Wayne PM¹, Walsh JN, Taylor-Piliae RE, et al. *Journal of the American Geriatrics Society*. 2014 Jan;62(1):25-39.

Tai chi training reduces self-report of inattention in healthy young adults. [Converse AK](#), [Ahlers EO](#), [Travers BG](#), et al. *Frontiers in Human Neuroscience*. 2014 Jan 27;8:13.

Associations of Tai Chi, walking, and jogging with mortality in Chinese men. Wang N, Zhang X, Xiang YB, et al. *American Journal of Epidemiology*. 2013 Sep 1;178(5):791-6.

Complexity-based measures inform Tai Chi's impact on standing postural control in older adults with peripheral neuropathy. [Manor B1](#), [Lipsitz LA](#), [Wayne PM](#), [Peng CK](#), [Li L](#). *BMC Complementary and Alternative Medicine*. 2013 Apr 16;13:87.

Regular tai chi exercise decreases the percentage of type 2 cytokine-producing cells in postsurgical non-small cell lung cancer survivors. Wang R, Liu J, Chen P, Yu D. *Cancer Nursing*. 2013 Jul-Aug;36(4):E27-34.

Tai chi and postural stability in patients with Parkinson's disease. [Li F](#), [Harmer P](#), [Fitzgerald K](#), et al. *New England Journal of Medicine*. February 9, 2012. Volume 366(6), pages 511-9.

TAI CHI/QI GONG

Health benefits of qigong or tai chi for cancer patients: a systematic review and meta-analyses. Zeng Y, Luo T, Xie H, et al. *Complementary Therapies in Medicine*. 2014 Feb;22(1):173-86.

Traditional Chinese exercises for pulmonary rehabilitation: evidence from a systematic review. [Ng BH](#), [Tsang HW](#), [Ng BF](#), et al. *Journal of Cardiopulmonary Rehabilitation and Prevention*. 2014 Jun 10.

Randomized controlled trial of Qigong/Tai Chi easy on cancer-related fatigue in breast cancer survivors. Larkey LK, Roe DJ, Weihs KL, et al. *Annals of Behavioral Medicine*. 2014 Aug 15.

Effectiveness of Tai Chi and Qigong on chronic obstructive pulmonary disease: a systematic review and meta-analysis. Ding M, Zhang W, Li K, Chen X. *Journal of Alternative and Complementary Medicine*. 2014 Feb;20(2):79-86.

The sustaining effects of Tai chi Qigong on physiological health for COPD patients: a randomized controlled trial. [Chan AW](#), [Lee A](#), [Lee DT](#), et al. *Complementary Therapies in Medicine*. 2013 Dec;21(6):585-94.

QI GONG

Levels of fatigue and distress in senior prostate cancer survivors enrolled in a 12-week randomized controlled trial of Qigong. Campo RA, Agarwal N, LaStayo PC, et al. *Journal of Cancer Survivorship*. 2014 Mar;8(1):60-9.

Effects of Qigong exercise on upper limb lymphedema and blood flow in survivors of breast cancer: a pilot study. Fong SS¹, Ng SS, Luk WS, et al. *Integrative Cancer Therapies*. 2014 Jan;13(1):54-61.

Qigong improves quality of life in women undergoing radiotherapy for breast cancer: results of a randomized controlled trial. Chen Z, Meng Z, Milbury K, et al. *Cancer*. 2013 May 1;119(9):1690-8.

A pilot study of Qigong for reducing cocaine craving early in recovery. Smelson D, Chen KW, Ziedonis D, et al. *Journal of Alternative and Complement Medicine*. 2013 Feb;19(2):97-101.

The effects of Qigong on anxiety, depression, and psychological well-being: a systematic review and meta-analysis. Wang F, Man JK, Lee EK, et al. *Evidence-Based Complementary and Alternative Medicine*. 2013.

A systematic review of the effectiveness of Qigong exercise in cardiac rehabilitation. Chan CL, Wang CW, Ho RT, et al. *American Journal of Chinese Medicine*. 2012;40(2):255-67.

A critical review of the effects of medical Qigong on quality of life, immune function, and survival in cancer patients. Oh B, Butow P, Mullan B, et al. *Integrative Cancer Therapies*. 2012 Jun;11(2):101-10.

Levels of fatigue and distress in senior prostate cancer survivors enrolled in a 12-week randomized controlled trial of Qigong. Campo RA, Agarwal N, LaStayo PC, et al. *Journal of Cancer Survivorship*. 2014 Mar;8(1):60-9.

The benefits of medical Qigong in patients with cancer: a descriptive pilot study. Overcash J, Will KM, Lipetz DW. *Clinical Journal of Oncology Nursing*. 2013 Dec;17(6):654-8.

CURRENT PERSPECTIVES

Movement-based embodied contemplative practices: definitions and paradigms. Schmalzl L, [Crane-Godreau MA](#), [Payne P](#). [Front Hum Neurosci](#). 2014 Apr 14;8:205
